## **Big Section**

## R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.

When you *click* the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

- 1. This is a numbered list.
- 2. Here is the second item.
  - a. sublist
  - b. another one
- unordered list item
- item 2

Inline text. 
$$\overline{X}_n = \sum_{i=1}^{n} \frac{1}{n} X_i$$

$$\overline{X}_n = \sum_{i=1}^{n} \frac{1}{n} X_i$$

```
##
        speed
                         dist
##
    Min.
          : 4.0
                   Min.
                           : 2.00
##
    1st Qu.:12.0
                    1st Qu.: 26.00
   Median:15.0
                    Median : 36.00
##
    Mean
           :15.4
                    Mean
                           : 42.98
                    3rd Qu.: 56.00
##
    3rd Qu.:19.0
   Max.
           :25.0
                           :120.00
```

There are 50 rows in the cars dataset.

## **Including Plots**

You can also embed plots, for example:

Note that the echo = FALSE parameter was added to the code chunk to prevent printing of the R code that generated the plot.

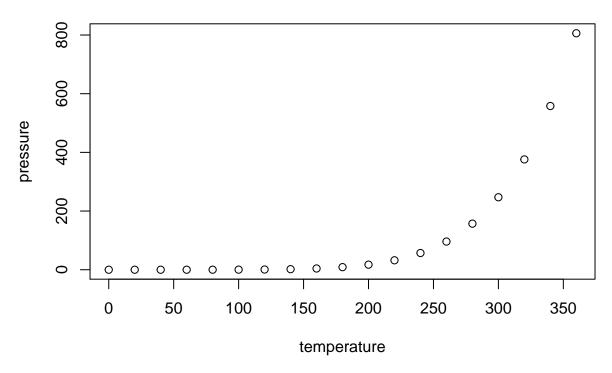

Figure 1: This is a beautiful plot, but I wish it was ggplot!
